modern machine shop 1965 Article Index

A subject listing of articles published in MODERN MACHINE SHOP during the past year.

ABRASIVE MACHINING

Abrasive Belt Machine Masters Stainless ..... July, 78
Advances in Water Soluble Coolants ..... July, 84
Tools for Profit ..... Sept., 161

ASSEMBLY

Masking Tape Facilitates Bolt Assembly ..... May, 156
Bench Top Turntable for Assembly or Inspection ..... Nov., 160
Consider These Points When Selecting Rivet ..... Nov., 162

AUTOMATION

Transfer Machine Bores U-Joint "Spiders" ..... Jan., 148
Pulley Machining Handled by Chucking Automatics ..... Apr., 150
Computer Parts Machined on Cintimatic ..... May, 146
Chucking Automatic Tooled to Machine Forgings ..... July, 118
Better Performance from Bar Turners ..... Aug., 130
Tools for Profit ..... Sept., 170
Chucker Breaks Production Bottleneck ..... Oct., 138
Automating the Small Machine Shop ..... Nov., 110
Chucking Automatic Performs Special Bar Work ..... Nov., 146
Brakes Machined in 20-Station Transfer Setup ..... Nov., 154

BALANCING

Shipyard Balancing Requires Versatile Equipment ..... Dec., 132

BENDING

Bending Versatility, Quick Change-Over Speed Work ..... Apr., 152
N/C Bending System Saves Time in Forming Coils ..... Dec., 126

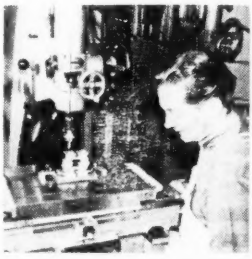
BLANKING

Blanking Stock in Short Runs With Polyurethane ..... Mar., 154

BORING

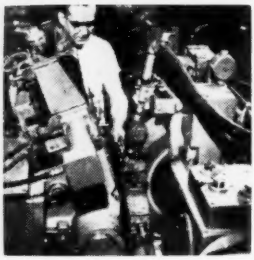
Pot Chuck Holds Second Operation Concentricity ..... Jan., 118
Transfer Machine Bores U-Joint "Spiders" ..... Jan., 148
Tooling for Sheave ..... Jan., 152
Rotary-Index Boring Boosts Output of Parts ..... Feb., 148
Machining Within One Light Band of Tolerance ..... Apr., 116

April, Page 116



November, Page 110

1965 Article Index . . .



June, Page 140

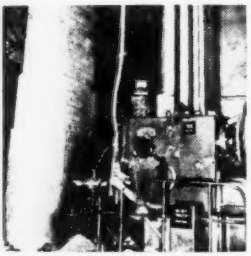
Lathe Cross Slide Design Solves Boring Problem ..... Apr., 138
Tape Controlled Mill Machines Press Frames ..... Apr., 144
Rod Boring Setup Provides High Quality Finish ..... June, 150
Contour Machines Reduce Nozzle Production Time ..... July, 114
Machining Massive Nuclear Reactor Components ..... Oct., 130

BROACHING
Interchangeable Adaptors Solve Broaching Problem ..... Mar., 146

BURNISHING
Tooling for Sheave ..... Jan., 152

CAM GENERATING
Cams Easily Duplicated on a Lathe ..... Jan., 136

CARBIDE TOOLING
Titanium Carbide Lasts Longer in Application ..... May, 150
Notching Thin Stock Easy With Machinable Carbide ..... June, 144
Adjustable Inserts Extend Life of Facing Tools ..... Dec., 135



October, Page 130

CHUCKING
Pot Chuck Holds Second Operation Concentricity ..... Jan., 118
Low-Cost Chucks for Irregular Workpieces ..... Feb., 146
Interchangeable Turret Adaptor Plates ..... Mar., 144
Keeping Magnetic Grinder Chucks Clean and Smooth ..... Mar., 150
Adapter Increases Lathe Versatility ..... Apr., 156
Chucking Automatic Tooled to Machine Forgings ..... July, 118
Master Adapter Jaws for Turning Machines ..... Aug., 126
Tools for Profit ..... Sept., 161
Chucker Breaks Production Bottleneck ..... Oct., 138
Chucking Automatic Performs Special Bar Work ..... Nov., 146

CLEANING
High Production Deburring and Cleaning of Slots ..... Feb., 152
Lubricant and Cleaner for Rubber Shop Stamps ..... Apr., 154

COMPUTERS
The Computer and N/C ..... Jan., 120
Installing a Computer System ..... May, 110
N/C Positioning and the Computer ..... July, 90

COOLANTS
Advances in Water Soluble Coolants ..... July, 84
Tools for Profit ..... Sept., 181

CUTTING TOOLS
How Not to Bell a Taper ..... June, 118
Coating Extends Tap Life ..... June, 140

DEBURRING
Belt Sander Cuts Cabinet Panel Polishing Time ..... Jan., 144
High Production Deburring and Cleaning of Slots ..... Feb., 152
Deburring Problems Solved on Bearings ..... Apr., 140

DIAMOND TOOLING
Diamond Tools Used in Turning Tellurium Copper ..... Jan., 142

May, Page 110

DIE DESIGN

How to Avoid Excessive Die Maintenance ..... Feb., 126
Fork-Loading Adapter for Heavy Dies ..... Feb., 156
Stock Saving Economics of the Transfer Die ..... June, 128
Salvaging Cracked Drop Hammer Dies ..... June, 154
Die Section Lifter Made from Worn Hexagon Wrench .. Aug., 127
Expanding Dowels Eliminate Expensive Gaging ..... Oct., 154

DRILLING

Drilling Machine Produces Precision Center Holes .... Jan., 143
Transfer Machine Bores U-Joint "Spiders" ..... Jan., 148
Tooling for Sheave ..... Jan., 152
Tape and Conventional Drill Combination ..... May, 116
Jig for Drilling L-Shaped Workpieces ..... June, 155
N/C Positioning and the Computer ..... July, 90
Tools for Profit ..... Sept., 132
Turret Drills Operate Horizontally ..... Dec., 122
Simple Templet Assures Optimum Twist Drill Range .. Dec., 136

DUST CONTROL

Dust Collectors Assure More Efficient Machining .... Jan., 154
Converted Drill Press Cleans Critical Parts ..... May, 139
Dust Collector Advantageous in Brass Finishing ..... Oct., 142

ELECTRICAL DISCHARGE MACHINING

A Look at the Advantages of EDM ..... Mar., 110
Tools for Profit ..... Sept., 182
EDM: The Versatile Workhorse ..... Nov., 126
EDM: A Time-Saver in Mold Making ..... Dec., 122

ELECTRO HYDRAULIC FORMING

Tools for Profit ..... Sept., 183

ELECTROLYTIC GRINDING

Cool and Accurate Is the Word ..... Feb., 110

EMPLOYEE TRAINING

How to Double the Output of Your People ..... Apr., 132
Seven Actions That Motivate ..... May, 134

EXTRUDING

Automatic Bar Feed Aids Extrusion Production ..... Aug., 124

FABRICATION

How to Make Fabricated Assemblies ..... Nov., 132

FACING

Adjustable Inserts Extend Life of Facing Tools ..... Dec., 135

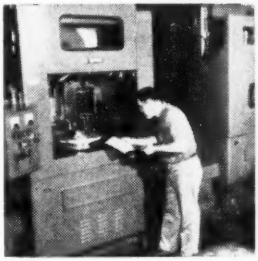
FASTENING

Unit Proves Efficient in Tapping Housings ..... Mar., 140

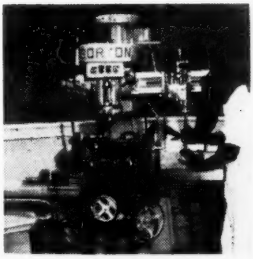
FIXTURES & JIGS

Chuck Converted to Drill and Tap Jig ..... Jan., 158
Radius Turning Fixture for Spherical Shapes ..... Jan., 159
Simple Spot Welding Fixture ..... Feb., 154

March, Page 110

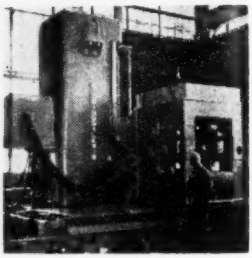


July, Page 104



January, Page 110

1965 Article Index . . .

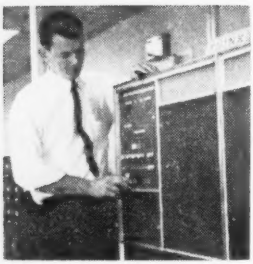


January, Page 142

Tooling Modifications Speed Milling Operations ..... Mar., 130
Special Fixture Speeds Tail Light Assembly ..... Mar., 141
Interchangeable Adaptors Solve Broaching Problem . Mar., 146
Lathe Cross Slide Design Solves Boring Problem ..... Apr., 138
Peening Block for Punches and Rivets ..... Apr., 154
Precise Lateral-Adjustment Instrument Support ..... May, 154
Jig for Drilling L-Shaped Workpieces ..... June, 155
Holder for Off-Hand Grinding of Short Toolbits ..... July, 122
Tooling Costs Cut With Industrial Laminate ..... Aug., 121
Removable Tray for Riveting Machine ..... Oct., 158
Mold Plate Milling Fixture ..... Oct., 158
Hardwood Center Rest ..... Oct., 159
Technique for Machining Master Fixtures ..... Nov., 150
Fixture Positions Bracket Components for Welding ... Dec., 134
Simple Templet Assures Optimum Twist Drill Usage .. Dec., 136

FORMING

Hot Forming Titanium ..... June, 110
Using and Working Acrylics ..... June, 122
Tools for Profit ..... Sept., 160



July, Page 90

FORGING

Machining Hitching Posts for the Saturn Rocket ..... July, 100

GAGING

System Speeds Grinding of Multi-Diameter Parts ..... Mar., 142
Grinding With In-Process Gaging ..... May, 120
Precise Lateral-Adjustment Instrument Support ..... May, 154
Gage Accurately Checks Bearing End Play ..... July, 124
N/C Tool Tip Dilemma No More ..... Aug., 94
Old Lathe Headstock Makes Useful Inspection Aid ... Aug., 128
Gage Checks Three Dimensions on Flared Tubes .... Nov., 158

GEAR CUTTING

Tools for Profit ..... Sept., 146
Free-Machining Steel Reduces Cost of Gears ..... Oct., 152

GRINDING

Jet Engine Parts Reconditioned With Abrasives ..... Jan., 146
System Speeds Grinding of Multi-Diameter Parts ..... Mar., 142
Keeping Magnetic Grinder Chucks Clean and Smooth . Mar., 150
Reconditioning Crankshafts for Engines ..... Apr., 124
Grinding With In-Process Gaging ..... May, 120
Grinder Increases Wobble Shaft Production ..... May, 140
Grinder Increases Valve Spool Production ..... June, 141
Grinding Ferrite Parts on Double Disc Grinders ..... July, 110
Tools for Profit ..... Sept., 161
Combination Turret-Quick Change Tool Posts ..... Oct., 144
Grinding Belt Ups Production of Golf Irons ..... Nov., 144
Auxiliary Hub Eliminates Redressing of Wheels ..... Nov., 158

August, Page 78

GROOVING

Variable Location Grooving Made Easy at Towmotor .. Jan., 132
Unique Tool Solves Deep Grooving Problem ..... Nov., 148

HARD FACING

Cool and Accurate Is the Word ..... Feb., 110

HEAT TREATING
Compound Solves Steel Hardening Problems ..... Aug., 120

HOT MACHINING
Hot Forming Titanium ..... June, 110

HONING
Honing ..... May, 158

INDEXING
Special Feed Mechanism Speeds Press Production .... Jan., 150
Rotary-Index Boring Boosts Output of Parts ..... Feb., 148

INSPECTION
Old Lathe Headstock Makes Useful Inspection Aid ... Aug., 128
Bench Top Turntable for Assembly or Inspection .... Sept., 160

LAPPING
Machining Within One Light Band of Tolerance ..... Apr., 116
Conventional Equipment Speeds Optical Production .. Dec., 104

LUBRICATING
Coating Extends Tap Life ..... June, 140

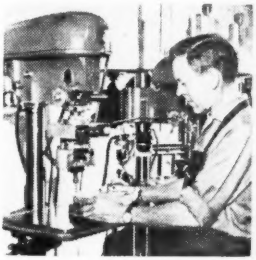
MACHINE DESIGN
Custom Designed Router Uses Linear Bearings ..... July, 106
Linear Bearings Guide Food Irradiator Travel ..... Dec., 128

MAINTENANCE
Metallic Sleeves Protect Lathe Lead Screws ..... May, 138
Salvaging Cracked Drop Hammer Dies ..... June, 154
Repairing Heavy Sleeve-Type Industrial Bearings .... Oct., 124
Fast Repair Job Saves $20,000 a Day ..... Dec., 112

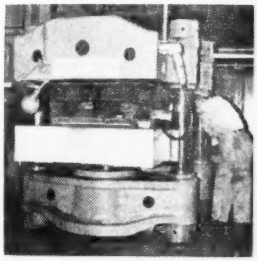
MANAGEMENT
Not Crepe, But Change ..... Mar., 136
How to Double the Output of Your People ..... Apr., 132
Installing a Computer System ..... May, 110
Honestly Now, What Would You Do? ..... June, 136
Your Finances, Management, and the SBA ..... Aug., 88
Tools for Profit ..... Sept., 129
Automating the Small Machine Shop ..... Nov., 110
How to Squeeze an Extra Hour into Every Day ..... Nov., 136

MATERIALS
Machining Beryllium Components ..... Jan., 110
Diamond Tools Used in Turning Tellurium Copper ... Jan., 142
Stainless Steel Tubular Products ..... Feb., 158
Machining Carbon and Graphite ..... Mar., 118
Blanking Stock in Short Runs With Polyurethane .... Mar., 154
Aluminum Alloys for Bearings ..... Mar., 158
When Milling Aluminum Turn Cutter into a Tiger .... Apr., 110
Hot Forming Titanium ..... June, 110
Using and Working Acrylics ..... June, 122
Collars Made from Flat Bar Stock ..... June, 142
Rods for Screw Machine Products ..... June, 158
Abrasive Belt Machine Masters Stainless ..... July, 78
Grinding Ferrite Parts on Double Disc Grinders ..... July, 110

November, Page 142

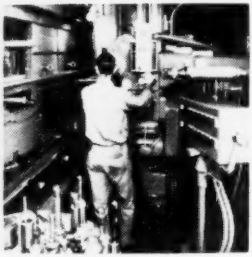


May, Page 138



June, Page 110

1965 Article Index . . .



November, Page 142

Heat Treated Stainless Improves Production ..... July, 120
Tooling Costs Cut With Industrial Laminate ..... Aug., 121
Tools for Profit ..... Sept., 185
Free-Machining Steel Reduces Cost of Gears ..... Oct., 152
18 Percent Nickel Maraging Steels ..... Oct., 162

MATERIALS HANDLING

Fork-Loading Adapter for Heavy Dies ..... Feb., 156

METALLIZING

Metallized Transmission Parts Last Longer ..... Apr., 142

MILLING

Tooling Modifications Speed Milling Operations ..... Mar., 130
Machining on the Campus ..... Mar., 132
When Milling Aluminum Turn Cutter into a Tiger .... Apr., 110
Tape Controlled Mill Machines Press Frames ..... Apr., 144
Tools for Profit ..... Sept., 168
Mold Plate Milling Fixture ..... Oct., 158

NUMERICAL CONTROL

The Computer and N/C ..... Jan., 120
Machine Axis Designations ..... Feb., 132
Not Crepe, But Change ..... Mar., 136
Tape Controlled Mill Machines Press Frames ..... Apr., 144
Tape and Conventional Drill Combination ..... May, 116
Computer Parts Machined on Cintimatic ..... May, 146
N/C Positioning and the Computer ..... July, 90
Systems Concept Applied to Manufacturing Frames .. Aug., 78
N/C Tool Tip Dilemma No More ..... Aug., 94
Tools for Profit ..... Sept., 138
Preparation—A "Must" for an 8-Axis N/C Giant ..... Oct., 116
Automating the Small Machine Shop ..... Nov., 110
N/C Bending System Saves Time in Forming Coils ... Dec., 126

April, Page 132

OPTICAL TOOLING

Mask Aids Inspection With Optical Flats ..... Feb., 155

PEENING

Peening Block for Punches and Rivets ..... Apr., 154

PLANT MANAGEMENT

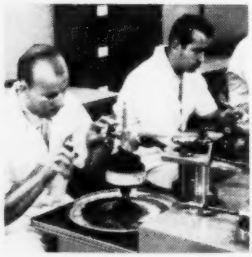
Inside Story of a Modern Machine Shop ..... May, 130

POLISHING

Belt Sander Cuts Cabinet Panel Polishing Time ..... Jan., 144
Jet Engine Parts Reconditioned With Abrasives ..... Jan., 146

PRESS WORKING

Special Feed Mechanism Speeds Press Production .... Jan., 150
Press Brake Fundamentals ..... Jan., 164
Producing Precision Welded Diaphragm Bellows ..... Feb., 118
Multipress Reduces Costs in Producing Stones ..... Apr., 139
Stock Saving Economics of the Transfer Die ..... June, 128
Notching Thin Stock Easy With Machinable Carbide .. June, 144
Factors Governing Press Speeds ..... July, 126
Automatic Bar Feed Aids Extrusion Production ..... Aug., 124
Tools for Profit ..... Sept., 178

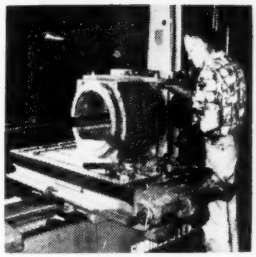


December, Page 104

Expanding Dowels Eliminate Expensive Gaging ..... Oct., 154
Changematic Line Produces 12 Parts Per Minute ..... Dec., 116

PUNCHING
Peening Block for Punches and Rivets ..... Apr., 154
Stock Saving Economics of the Transfer Die ..... June, 128
Builders Cut Costs With Modular Fabricators ..... June, 146
Expanding Dowels Eliminate Expensive Gaging ..... Oct., 154

REAMING
Tooling for Sheave ..... Jan., 152
How Not to Bell a Taper ..... June, 118



October, Page 124

RIVETING
Unit Proves Efficient in Tapping Housings ..... Mar., 140
Consider These Points When Selecting Rivet ..... Nov., 162

SAFETY
Machining Beryllium Components ..... Jan., 110
Transparent Shield Prevents Hand Injuries ..... Mar., 154

TAPPING
Unit Proves Efficient in Tapping Housings ..... Mar., 140
Aluminum Alloys for Bearings ..... Mar., 158
Lead Screw Tapper Saves Time in Part Tapping ..... May, 144
Coating Extends Tap Life ..... June, 140
Tapping Time Cut in Half on Automatic Unit ..... July, 104
Tools for Profit ..... Sept., 135
Lead Screw Tapper Improves Brass Fitting Output ... Dec., 124

February, Page 110

THREADING
Tools for Profit ..... Sept., 133
Definition, History and Development ..... Oct., 110
Thread Cutting Die Heads ..... Nov., 118
Cutting With Tangential Chasers ..... Dec., 92

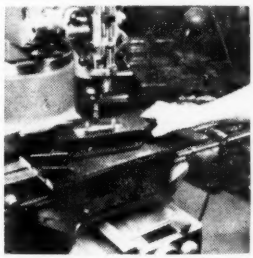
TOOL DESIGN
Tooling for Sheave ..... Jan., 152
Tooling Modifications Speed Milling Operations ..... Mar., 130
Interchangeable Turret Adaptor Plates ..... Mar., 144
N/C Tool Tip Dilemma No More ..... Aug., 94
Combination Turret-Quick Change Tool Posts ..... Oct., 144
Unique Tool Solves Deep Grooving Problem ..... Nov., 148
Geometry Holds Key to Diamond Tool Performance .. Dec., 86

TOOL GRINDING
How Not to Bell a Taper ..... June, 118
Holder for Off-Hand Grinding of Short Toolbits ..... July, 122

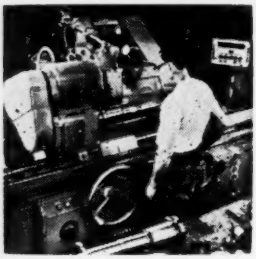
TOOL MAINTENANCE
Coating Extends Tap Life ..... June, 140

TRAINING
Installing a Computer System ..... May, 110
Tracer Attachment Cuts Production Time on Lathes .. Nov., 142

TURNING
Cams Easily Duplicated on a Lathe ..... Jan., 136



August, Page 120



March, Page 142

Diamond Tools Used in Turning Tellurium Copper ... Jan., 142
Radius Turning Fixture for Spherical Shapes ... Jan., 159
Variable Speed Lathe Offers Quality, Precision ... Feb., 142
Adapter Increases Lathe Versatility ... Apr., 156
Contour Machines Reduce Nozzle Production Time ... July, 114
Master Adapter Jaws for Turning Machines ... Aug., 126
Better Performance from Bar Turners ... Aug., 130
Tools for Profit ... Sept., 152
Hardwood Center Rest ... Oct., 159
Tracer Attachment Cuts Production Time on Lathes ... Nov., 142
Geometry Holds Key to Diamond Tool Performance ... Dec., 86

WELDING

Producing Precision Welded Diaphragm Bellows ... Feb., 118
Simple Spot Welding Fixture ... Feb., 154
How to Make Fabricated Assemblies ... Nov., 132
Fixture Positions Bracket Components for Welding ... Dec., 134

GENERAL INTEREST

February, Page 142

The Computer and N/C ... Jan., 120
Variable Location Grooving Made Easy at Towmotor ... Jan., 132
Cams Easily Duplicated on a Lathe ... Jan., 136
Cool and Accurate Is the Word ... Feb., 110
How to Avoid Excessive Die Maintenance ... Feb., 126
How to Undermine Production Management ... Feb., 160
A Look at the Advantages of EDM ... Mar., 110
Machining Carbon and Graphite ... Mar., 118
You Can Make More Profit With Compressed Dry Air ... Mar., 124
Machining on the Campus ... Mar., 132
Not Crepe, But Change ... Mar., 136
Machining Within One Light Band of Tolerance ... Apr., 116
Reconditioning Crankshafts for Engines ... Apr., 124
How to Double the Output of Your People ... Apr., 132
Installing a Computer System ... May, 110
Tape and Conventional Drill Combination ... May, 116
Grinding With In-Process Gaging ... May, 120
Inside Story of a Modern Machine Shop ... May, 130
Hot Forming Titanium ... June, 110
Using and Working Acrylics ... June, 122
Honestly Now, What Would You Do? ... June, 136
Advances in Water Soluble Coolants ... July, 84
N/C Positioning and the Computer ... July, 90
Machining Hitching Posts for the Saturn Rocket ... July, 100
Systems Concept Applied to Manufacturing Frames ... Aug., 78
Your Finances, Management, and the SBA ... Aug., 88
The Machine Tool Show—1965 ... Aug., 100
Tools for Profit ... Sept., 129
Definition, History and Development ... Oct., 110
Repairing Heavy Sleeve-Type Industrial Bearings ... Oct., 124
Machining Massive Nuclear Reactor Components ... Oct., 130
Automating the Small Machine Shop ... Nov., 110
Thread Cutting Die Heads ... Nov., 118
EDM: The Versatile Workhorse ... Nov., 126
How to Make Fabricated Assemblies ... Nov., 132
How to Squeeze an Extra Hour into Every Day ... Nov., 136
Geometry Holds Key to Diamond Tool Performance ... Dec., 86
Cutting With Tangential Chasers ... Dec., 92
Fast Repair Job Saves $20,000 a Day ... Dec., 112

December, Page 122
